

SAFETY+ SECURITY

LEXAN™ MARGARD™ SHEET FOR SECURITY GLAZING

LEXAN™ MARGARD™ sheet is a both side hard coated polycarbonate sheet offering excellent abrasion resistance, impact resistance and optical clarity.

This virtually unbreakable product from SABIC is an excellent candidate for security glazing for windows and roof glazing applications that may help improve safety in the working and living environment.

PROPERTIES

- Abrasion resistance
- Impact resistance
- Weathering resistance
- Anti-fog performance (only specific grade)
- Enhanced chemical resistance against most cleaning fluids and oils

APPLICATIONS

- Machine guards
- Sound walls
- Specialty vehicle glazing
- Security glazing
